NOTICE: BILLS WILL BE DELINQUENT IF NOT PAID ON OR BEFORE THE DUE DATE INDICATED ABOVE

MESSAGE CENTER

THANK YOU FOR YOUR BUSINESS
 SEE REVERSE SIDE FOR ADDITIONAL INFORMATION.

What Does It Mean?

- 1 The top part of the bill should be included with payment, whether by mail or at a customer service center.
- 2 The customer account number is used for any billing questions.

- 3 Balance Forward** – amount due from a previous month.
Current Charges – amount due from the current month.
Total Amount Due – the Balance Forward plus the Current Charges.
Amount Due Now – amount that must be paid by the Due Date. *(If this number has a minus sign (-) in front of it, this is a credit to your account and you do not need to pay this amount.)*
- 4 Electric Rate** – the rate class for this account. Click here for [rate class details](#).
- 5** The difference of the **Current Electric Reading** minus the **Previous Electric Reading** is multiplied by the Multiplier to calculate the energy units in kilowatt hours (kWh).
- 6** The **Power Adjustment Clause (PAC)** is an amount that changes each month based on purchased power costs, fuel costs, and credits associated with off-system sales from specific renewable energy generation facilities. The PAC rate is multiplied by your previous month's energy usage (in kWh) to calculate the PAC amount.
- 7 Customer Charge** – a fixed monthly charge associated with the cost of providing service to every meter.
- 8 Energy Charge** – the current month's energy usage (in kWh) multiplied by the energy rate.
- 9 Outdoor Lighting Charge (ODL)** – a fixed monthly charge for customers who have requested that Lockhart Power install and maintain outdoor lighting for security or other purposes. [Click here](#) for more information about this affordable benefit for Lockhart Power customers.
- 10** The monthly electrical usage history section provides a convenient way to track and compare energy consumption. This can be helpful when energy efficiency efforts are made (for example, replacing old appliances with more efficient models, installing more efficient lighting, etc.) to track reductions in energy use and associated cost savings.
- 11** Please read any comments in the **Message Center** every month for important information regarding your account.
