

LOCKHART POWER COMPANY
SCHEDULE EF
EXTRA FACILITIES

At the request of the customer, the Company will furnish, install, own and maintain facilities which are in addition to those necessary for delivery of service at one point, through one meter, at one voltage, in accordance with the applicable rate schedule, such additional facilities to be furnished under an "Extra Facilities Clause" added to and made a part of the Company's standard form of contract, and containing the following provisions:

(1) Service shall be used solely by the contracting customer in a single enterprise located entirely on a single, contiguous premises and there shall be no exemption from any of the provisions of these Service Regulations.

(2) "Extra Facilities" shall consist of such of the following as may be required: voltage regulators, circuit breakers, duplicate service, transformers, substations, connecting lines, or other equipment installed for the exclusive use of the contracting customer, other than facilities which the Company would furnish to the customer without cost under its standard form of contract.

(3) The facility to be supplied shall be Company standard overhead transmission or distribution, or transmission and distribution, equipment to be installed only on the Company side of the point of delivery.

(4) A monthly "Extra Facilities Charge", equal to 2.4% of the installed cost of the extra facilities, but not less than \$25.00, shall be billed to the customer in addition to the billing for energy, or for demand plus energy, in accordance with the applicable rate schedule.

(5) The "installed cost of extra facilities" shall be the cost new of materials used, including spare equipment, if any, plus applicable labor, transportation, stores, tax, engineering and general expense, all estimated if not known.

(6) "Extra Facilities" shall include the installed cost of extra meters and associated equipment necessary to record demand and energy at the voltage delivered to the customer. Upon mutual agreement between the customer and the Company, demand and energy may be metered at primary voltage, without compensation for transformer loss, and without inclusion of any part of the metering cost as an extra facility. When extra facilities furnished include a voltage regulator, metering equipment shall be installed on the Company side of the regulator, or if this is not feasible, the meter shall be compensated so as to include registration of the regulator losses.

(7) When the extra facilities requested by the customer consist of those required to furnish service at either more than one delivery point on the premises or at more than one voltage, or both, the installed cost of the extra facilities to be used in the computation of the Extra Facilities Charge shall be the difference between the installed cost of the facilities made necessary by the customer's request, and the installed cost of the facilities which the Company would furnish without cost to the customer under its standard form of contract.

(8) The Company shall have the option of refusing requests for extra facilities if, on its own determination, the requested facilities are not feasible, or may adversely affect the Company's service to other customers.

(9) Contracts containing the Extra Facilities Clause shall have a minimum original term of 5 years, to continue from year to year thereafter, but the Company may require the payment of removal costs in contracts with original term of 10 years or less, and may require advance payment of the Extra Facilities Charge for a period equal to one-half the original term of the contract.

(10) Customers for whom the Company may be furnishing extra facilities under contracts made prior to the effective date of this Extra Facilities Clause shall be exempted from all provisions of this Extra Facilities Clause except (1) until such time as their contracts may expire, or are terminated by the customer, or are terminated by the Company for reasons not related to the furnishing of extra facilities.
